PAPERS FOR PRESENTATION

Title	Authors	Area
Aircraft Speed and Fuel Usage: Empirical Estimates with an Exploration of Environmental Speed Limits	Jan K. Brueckner (University of California, Irvine), Chrystyane Abreu (Federal Center for Technological Education of Rio de Janeiro)	Aviation
Airline Mergers and Airport Connectivity	Nagwa Khordagui (US Department of Transportation)	Aviation
Can more flexibility in ANSP capacity provision really reduce delays? – A multi-stakeholder analysis	An Vo (Worms University of Applied Sciences), Frank Fichert (Worms University of Applied Sciences), Eric Pels (Vrije Universiteit)	Aviation
Capacity, Static and Dynamic pricing: theory and evidence	Claudio Piga (University of Genova), Marco Alderighi (Universita' della Valle d'Aosta)	Aviation
Competition and Price Dispersion: Case of the Canadian Airline Industry	Laingo Randrianarisoa (Kedge Business School)	Aviation
Estimating the value of connecting layover time for international passengers: A hedonic pricing approach	Alexander Luttmann (The MITRE Corporation)	Aviation
Evaluating the triggers for an Advanced Air Mobility (AAM) market	Carlos Beltran, Georg Hirte, Stefan Tscharaktschiew (Dresden University of Technology)	Aviation
Exploring the Effect of a Carbon Tax on Flight Networks	Jeffrey Tu (Northwestern University)	Aviation
Fees vs tradable permits for managing congestion under uncertainty with heterogeneous users	Achim Czerny (Hong Kong Polytechnic University), Robin Lindsey (University of British Columbia), Hanxiang Zhang (The Hong Kong Polytechnic University)	Aviation
Miles or Slots? Unpacking Market Power in the U.S. Airline Industry with a structural approach	Alexander Luttmann (The MITRE Corporation), Flavio Porta (Università di Bergamo)	Aviation
Penalties as prices? Evaluating airline strategic responses to tarmac delay penalties in the US	Hideki Fukui (Ehime University), Martin Dresner (University of Maryland), Chikage Miyoshi (Hiroshima University)	Aviation
Reagan National Airport and Perimeter Rule: An Exploratory Assessment of Operational Implications	Daniel Friedenzohn, Joao Souza Dias Garcia (Embry-Riddle Aeronautical University)	Aviation
The Effect of Entry and Exit on Airport Competition in Europe	Hans-Martin Niemeier (University of Applied Sciences Bremen), Wolfgang Grimme (DLR), Georg Hirte (Technische Universität Dresden), Shravana Kumar (Hochschule Bremen City University of Applied Sciences and TU Dresden), Tolga Ülkü (IU International University of Applied Sciences)	Aviation
The Interplay Between Airline Operational Efficiency and Passenger Experience: Evidence from Stochastic Frontier and Sentiment Analyses	Tassew Tolcha, Agaraoli Aravazhi (Molde University College)	Aviation
The Role of Hybrid Dual-till Price Cap Regulation in Shaping Non-Aeronautical Airport Revenues in Mexico	Victor Valdes (Universidad Anáhuac México)	Aviation

PAPERS FOR PRESENTATION

Welfare, consumer surplus and profit with electric aircraft	Andrea Gualini , Gianmaria Martini, Davide Scotti (Università di Bergamo)	Aviation
Who Benefits from Drone-Enhanced Food Delivery? Economic and Welfare Impacts of Drone Adoption	Chaoyu Wu, Xiaotong Sun, Cchenyang Li (The Hong Kong University of Science and Technology, Guangzhou)	Aviation
Beached Assets? Capital Turnover and Emissions in Shipping	Allen Peters (University of Connecticut)	Maritime
Bottlenecks and Corkscrews: Macroeconomic Implications of Maritime Supply Chain Disruptions	Alessandro Nava (University of Padua & CRIEP)	Maritime
Navigating the Ripple Effect: Unveiling the Hidden Currents of El Niño, the Panama Canal, and US West Coast Ports	Phillip Lee (University of Southern California)	Maritime
The Regulation of Capacity Expansion with Port Competition	Luciano Greco (University of Padua)	Maritime
A quantitative urban model for transport appraisal: Benchmarking welfare in partial and general equilibrium	Daniel Hörcher, Daniel Graham (Imperial College London)	Other
Accessibility to Economic and Social Opportunities through Public Transportation in Bogotá: A Study of Socio-Spatial Vulnerability	Carolina Fernandez, César Ruiz (Universidad Nacional de Colombia)	Other
Are special economic zone policies effective? – an empirical analysis on the transport and logistics' sector	Angela Bergantino, Giulio Fusco, Mario Intini (Università di Bari)	Other
Assessing the Impact of Drone Delivery on Urban Spatial Structure and Transportation Networks	Ziyue Li, Qianwen Guo (Florida State University)	Other
Atomic Proximal Policy Optimization for Electric Robo-Taxi Dispatch and Charger Allocation	Jim Dai, Manxi Wu, Zhanhao Zhang (Cornell University)	Other
Do Charging Station Care About Electricity Rates?	Jae-Yu Jung (Michigan State Univerisity)	Other
Enhancing Transport Resilience: Bike Sharing Use in Partially Disrupted Public Transport Systems – A Case Study on Strikes in Berlin	David Voigt (University Münster)	Other
Estimating the perturbed utility route choice model with individual-level data	Mogens Fosgerau (University of Copenhagen)	Other
Exploring Cross-Border Energy Policies and Their Impact on Gasoline Prices in Friuli Venezia Giulia, Italy.	Angela Bergantino (Università di Bari), Mario Intini (Università di Bari), Younes Nademi (Ayatollah Boroujerdi University), Federica Nuzzo (Università di Bari)	Other
First Insights from a Large-Scale Field Trial of a Tradable Credit Scheme: The MobilityCoins System for CO2 Reduction in Commuting	Isabella Waldorf, Klaus Bogenberger (Technical University of Munich)	Other
Highway Procurement During the Great Recession and Stimulus	Dakshina De Silva (Lancaster University), Benjamin Rosa (University of Michigan)	Other
Impacts of climate change on transport activities and infrastructure: perspectives for modeling and simulation	Moez Kilani (University of Littoral at Dunkerque), Seghir Zerguini (University of Bordeaux)	Other

PAPERS FOR PRESENTATION

Integrating a Spatial General Equilibrium and Transport Model: Evaluating Public Transport Tariff Reduction in the Netherlands	Hettie Boonman (TNO), Erik Verhoef (VU Amsterdam)	Other
The cost of doing nothing: Lab Experiment on Value of Time	Mickael Beaud (Université Montpellier 1), Thierry Blayac (CEE-M and University of Montpellier), Julie Rosaz (Burgundy school of Business), Maite Stephan (Université Rennes 1)	Other
The gravity of urban leisure destinations: Modelling non-commuting travel in a quantitative spatial model	Daniel Ruiz Palomo (Universitat Autònoma de Barcelona), Daniel Hörcher (Imperial College London)	Other
The Impact of Ride-Hailing on Employment and Earnings: Results from an RCT	Sagar Baviskar, Lee Branstetter, Seth Chizeck, Beibei Li (Carnegie Mellon University)	Other
The paradoxical comparative statics of hypercongestion and traffic flow theory	Alex Anas (State University of New York at Buffalo)	Other
Towards Sustainable Last-Mile Delivery: Assessing the Impact of Behavioral Interventions on Consumer Preferences	Thierry Blayac (CEE-M and University of Montpellier), Ouail Oulmakki (Neoma Business School)	Other
Usage-based Insurance in the Era of Connected Vehicles: Competition and Data Differentiation	Sen Yan, Daniel Vignon (New York University)	Other
Does a Multimodal Monopoly Benefit Everyone? Long-Distance Markets and Local Catchment Area Effects	Alessandro Avenali, Martina Gregori, Pierfrancesco Reverberi (Sapienza University of Rome)	Rail
Environmental Effects of Transport Electrification: Evidence From the Indian Railways	Vastav Ratra (London School of Economics and Political Science)	Rail
Intermodal Freight Opportunities for Lanes of 750 Miles or Less	Elizabeth Ogard (Prime Focus LLC)	Rail
Price effects of open access competition on HSR markets	Pedro Cantos-Sanchez, Rafael Moner-Colonques, Alba Ruiz-Buforn, Jose Sempere-Monerris (University of Valencia)	Rail
The changing economics of high-speed rail – a framework for analysis	Roger Vickerman (Imperial College London)	Rail
The introduction of a flat fare for public transport in Germany: who benefits from it?	Francesca Giacco, Mirko Goletz, Ariane Kehlbacher (DLR - German Aerospace Center)	Rail
The trade-off between agent incentives and risk in railway maintenance contracts	Kristofer Odolinski (Swedish National Road and Transport Research Institute), Abderrahman Ait Ali (VTI - Swedish National Road and Transport Research Institute), Jan-Eric Nilsson (Swedish National Road and Transport Research Institute), Andrew Smith (University of Leeds), Tomas Lidén (Swedish National Road and Transport Research Institute)	Rail
Whether to allow open access entry in long distance passenger services on common infrastructure in Europe: a “no brainer” or a costly social cost experiment?	Andrew Smith, David Pierce, Alexander Stead, Phill Wheat, Chris Nash (University of Leeds)	Rail

PAPERS FOR PRESENTATION

Activity-based demand for transportation: the case of the Nouvelle-Aquitaine region (France)	Moez Kilani (University of Littoral at Dunkerque), Seghir Zerguini (University of Bordeaux)	Road
Adaptation of Road Users to Fixed-Location Speed Enforcement Cameras: A Difference-in-Differences Analysis of Ring Road I in Helsinki	Iaroslav Kriuchkov (Aalto University)	Road
Calculating Vickrey's Marginal Cost Pricing for Midtown Manhattan: A Numerical Example	Siwei Hu, Wenlong Jin, R. Jayakrishnan (University of California, Irvine)	Road
Can Usage-Based Pricing Reduce Traffic Congestion?	Itai Ater (Tel Aviv University), Brad Ross (Stanford University), Adi Shany (Tel Aviv University), Eray Turkel (Stanford University), Shoshana Vasserman (Stanford University)	Road
Charging is the new parking: Optimal density of electric vehicle charging spots in residential areas	Stefan Tscharaktschiew (TU Dresden)	Road
Congestion Pricing for Tel-Aviv: Scheme, Advanced SP Survey and Models, and Scenario Analysis using various regional models	Yoram Shiftan (Technion)	Road
Cycling Beyond the Shortest Path: Analyzing Micro-Scale Environmental Influences on Route Selection	Angela Bergantino, Alessandro Gardelli, Mario Intini (Università di Bari), Frank Witlox (Ghent University)	Road
Decision-making with machine prediction: Evidence from predictive maintenance in trucking	Adam Harris (Cornell University)	Road
Demand risk mitigation through capacity expansion options in highway concessions	Pablo Durango-Cohen, Pablo Teixeira (Northwestern University)	Road
Does price transparency increase prices? Theory and empirical evidence from the Italian retail fuel market	Marco Alderighi (Universita' della Valle d'Aosta), Alberto Gaggero (University of Aosta Valley), Alexander Luttmann (The MITRE Corporation)	Road
Driven by Benefits: How Company Cars Impact Travel Behaviour	Maria Kennel, Marlena Meier, Jan Wessel (University of Münster)	Road
Dynamic Urban Transport Taxes and Subsidies in the Transition To Electric Mobility	Leonardo J. Basso (Universidad de Chile), Maria Börjesson (VTI, LIU), Francisca Inostroza (Universidad de Chile), Alejandro Tirachini (Universidad de Chile)	Road
Economic Geography and the Size of Optimal Congestion Zones	Matthew Tarduno (University of Illinois at Chicago)	Road
Effective and Equitable Congestion Pricing: New York City and Beyond	Michael Ostrovsky (Stanford University), Frank Yang (University of Chicago)	Road
Effects of Autonomous Vehicles in the Netherlands: A Spatial General-Equilibrium Approach	Diego Candia (Vrije Universiteit Amsterdam), Erik Verhoef (Vrije Universiteit Amsterdam), Sal Basurto-Hernandez (Universidad Nacional Autonoma de Mexico)	Road

PAPERS FOR PRESENTATION

Electric vehicles and the political economy of road pricing	Bruno De Borger (University of Antwerp), Stef Proost (KULeuven)	Road
Empirical comparison of car and bike travel times: estimating Value of Travel Time Savings (VTTS) in a car-dominated urban area	Angela Bergantino, Alessandro Gardelli (Università di Bari)	Road
Equilibria in the Decentralized Freight Network	Nicholas Buchholz (Princeton University), Richard Faltings (University of Texas at Austin), John Lazarev (New York University)	Road
Estimating Congestion Externalities Using Big Data	Antonio Bento, Santiago De Martini (University of Southern California), Jonathan Hall (University of Alabama)	Road
Estimating the impact of traffic intensity and vehicle types on road accidents across different road types	Anna Matas (Universitat Autonoma de Barcelona), Josep-LLuis Raymond (Universitat Autonoma de Barcelona), Jos van Ommeren (Vrije Universiteit Amsterdam	Road
Expecting an Expressway	Jeffrey Brinkman, Jeffrey Lin, Kyle Mangum (Federal Reserve Bank of Philadelphia)	Road
Fuel for Thought: Gasoline Pricing Strategies and Fuel Tourism in the German-Luxembourg Border Region	Sebastian Specht (University of Münster)	Road
Highways, Commuting and Trade: Unpacking Suburban Growth	Daniel Velasquez (University of Michigan)	Road
Horizontal queues on the way to equilibrium	Lewis Lehe, Ayush Pandey (University of Illinois, Urbana-Champaign)	Road
How Do Driver Assistance Technologies Affect Transportation Safety?	Jonathan Hall (University of Alabama), Conor Lennon (Rensselaer Polytechnic Institute), Joshua Madsen (University of Minnesota)	Road
Internal Trade Barriers in India	Prabhat Barnwal (Michgan State University), Jonathan Dingel (Columbia University), Daniil Iurchenko (University of Chicago), Pravin Krishna (Johns Hopkins University), Eva Van Leemput (Federal Reserve Board of Governors)	Road
Investigating the impact of robotaxi on transportation workforce: travelers' mode shifts and emerging opportunities	Hongyu Zheng (University of Tennessee, Knoxville)	Road
Load it Up: Economies of Scale, Market Power, and Natural Disasters in Ground Freight Transportation	Gustavo Nino (University of Illinois)	Road
Long-Term Relationships and the Spot Market: Evidence from US Trucking	Adam Harris (Cornell University), Thi Mai Anh Nguyen (New York University)	Road
Majority voting on road pricing and capacity investment under a self-financing constraint	Toru Takahashi (Josai University)	Road
Managing range anxiety by information design	Qianni Wang, Yu (Marco) Nie (Northwestern University)	Road

PAPERS FOR PRESENTATION

Measuring and Mitigating Traffic Externalities	Zane Kashner, Brad Ross (Stanford University)	Road
MobilityCoins – Towards an Agent-Based Approach to Simulating Tradable Mobility Credits	Philipp Servatius (Technical University of Munich (TUM)), Sebastian Hörl (IRT SystemX), Klaus Bogenberger (Technical University of Munich)	Road
Navigation apps and traffic externalities	Bruno De Borger (University of Antwerp), Stefanie Peer (Vienna University of Economics & Business), Antonio Russo (Institut Mines-Telecom Business School	Road
Optimal road taxation for electric cars in Europe	Daniele De Santis (Sapienza University of Rome), Alejandro Tirachini (Universidad de Chile)	Road
Preventing a Vehicle Arms Race: The Social Benefits of "Weightless" Safety Ratings	Jonathan Scott (University of Texas, Dallas)	Road
Reverse Engineering ADL-Vickey Models	André de Palma (CY Cergy Paris Université), Zhenyu Yang (Ecole Polytechnique Federale de Lausanne), Pietro Giardina(Ecole Polytechnique Federale de Lausanne), Nikolas Geroliminis (Ecole Polytechnique Federale de Lausanne)	Road
Should Cities Ban Motorcycles? Evidence from Chinese Cities	Shusheng Zhong (Northwestern University)	Road
The Impact of Road Supply, Transit Expansion, and Land-Use Density on Car Use – Using Micro-Panel Data	Maria Börjesson (VTI, LIU), Pernilla Ivehammar (Linköping University)	Road
Trading trips: combatting traffic congestion through tradable permits	Kexin Geng (Beijing Jiaotong University), Erik Verhoef (VU Amsterdam), Yacan Wang (Beijing Jiaotong University)	Road
Traffic Congestion and Labor Supply: Evidence from Smartphone data	Minoru Higa (Universidad de los Andes)	Road
Unlocking Mobility: The Welfare Impact of Traffic Metering on Paris' Boulevard Périphérique	Andre de Palma (Cergy-Paris Universite), Lucas Javaudin (Cergy Paris Université), Robin Lindsey (University of British Columbia)	Road
Value Pricing or Lexus Lanes? The Distributional Effects of Dynamic Tolling	Cody Cook (Yale University), Pearl Li (Federal Trade Commission)	Road
Vehicle Scrappage Policies and carbon emission implications: Evidence from Sweden	Levi Soborowicz and Chandra Kiran Krishnamurthy (Swedish University of Agricultural Sciences)	Road
What do Vehicle Safety Ratings Tell Us?	Justin Tyndall (University of Hawai'i at Mānoa)	Road
Who does not go electric? Car owner characteristics in the final diffusion stage of electric passenger cars	Gøril Andreassen (Norwegian University of Life Sciences Askill H. Halse (Institute of Transport Economics), Bjørn Johansen	Road
Why is EV Charging So Unreliable? The Role of Competition in Supplementary Services	Yifan Liu (Georgia Institute of Technology), Omar Asensio (Georgia Institute of Technology), Michael Toffel (Harvard University Business School)	Road

PAPERS FOR PRESENTATION

You cannot drive my car without me: Car ownership and mode choice within couples	André de Palma (CY Cergy Paris Université), Luis Gomez-Limberopulos (University of Strasbourg), Nathalie Picard (University of Strasbourg)	Road
Bus Rapid Transit's Impact on Residential Prices: A Study of Cleveland's HealthLine	Josh Chapman (Cook County, Illinois, Government), Ian Savage (Northwestern University)	Urban mass transit
Closing the Overground loop: The intensive margin network impact of circular train lines	Alexis Mergan (ULB)	Urban mass transit
Consumer valuation of environmental impact: Integrating external cost metrics in commuting discrete-choice experiments	Tiziana D'Alfonso (Sapienza University of Rome), Ricardo Daziano (Cornell University), Siqi Feng (Cornell University), Mirko Giagnorio (Sapienza University of Rome)	Urban mass transit
Departure time choice with congestion and seating within trains	Ryo Itoh (Tohoku University)	Urban mass transit
Fare-free public transport is effective in improving air quality	Yuan Liang, Donggen Wang (Hong Kong Baptist University)	Urban mass transit
Fare-free transit: partial vs. full implementation	Tianxing Dai, Yu (Marco) Nie (Northwestern University)	Urban mass transit
Friends or Foes: Do Interference and Staggered Introduction Matter for the Impact of Bike-sharing on Public Transit?	Yanchao Li, Daniel Vignon (New York University)	Urban mass transit
Fully Bayesian Imputation of Transit Panel Survey Data	Spencer Aeschliman and Amanda Stathopoulos (Northwestern University)	Urban mass transit
Living in Awareness: Mobility Responses to Sex Offender Release and Reentry	Sungjin Kim (Northwestern University)	Urban mass transit
Metro investment and car use	Touko Väänänen, Oskari Harjunen (Aalto University)	Urban mass transit
Mode Shift Versus Urban Sprawl: A Quantitative Spatial Model for a Suburban Railway Policy in Budapest	Réka Kertész-Doffkay (KTI Hungarian Institute for Transport Sciences and Logistics), Daniel Hörcher (Imperial College London), Stefan Tscharaktschiew (TU Dresden	Urban mass transit
Navigating Change: Google Maps, Real-Time Information, and Transit Ridership	Rhiannon Jerch (The University of Wisconsin-Madison), Andrea La Nauze (Deakin University)	Urban mass transit
Non-price Competition in Deregulated Urban Bus Systems	Marco Batarce (Universidad San Sebastian, Chile)	Urban mass transit
On The Right Track? Designing Optimal Public Transit Contracts	Matias Navarro (Cornell University)	Urban mass transit
Public and Private Transit: Evidence from Lagos	Daniel Bjorkegren (Columbia University), Alice Duhaut (The World Bank), Geetika Nagpal (World Bank), Nick Tsivanidis (University of California, Berkeley)	Urban mass transit
Public transit decarbonization and cooperation among transport, fleet and energy operators: Implications on investment and social welfare	Alessandro Avenali, Mirko Giagnorio, Giorgio Matteucci, Pierfrancesco Reverberi (Sapienza University of Rome)	Urban mass transit
Public Transit Provision and Fare Structure in U.S. Cities	Binglin Wang (National University of Singapore)	Urban mass transit

PAPERS FOR PRESENTATION

Reactions of Different Income Groups to Cheaper Public Transport	Petter Christiansen, Fredrik Gregerse (Norwegian Insitute of Transport Economics)	Urban mass transit
Revealing social weights in reduced fare programs	Sergio Jara-Diaz (Universidad de Chile), Diego Cruz (Directorio de Transporte Público Metropolitano (DTPM, Chile), Felipe Tapia (Directorio de Transporte Público Metropolitano (DTPM, Chile)	Urban mass transit
Scale Economies and the Decline of Ridepooling: A Case Study of New York City	Ayush Pandey (University of Illinois, Urbana-Champaign), Hao Liu (Jackson State University), Xin Dong (The Pennsylvania State University), Lewis Lehe (University of Illinois, Urbana-Champaign), Vikash Gayah (The Pennsylvania State University)	Urban mass transit
Scale Effects of Rapid Transit and Automobile Adoption	Danae Hernandez (University of California, Santa Barbara), Paulina Oliva (University of Southern Californiua), Christopher Severen (Federal Reserve Bank of Philadelphia)	Urban mass transit
The Environmental Impact of Working From Home	Rainald Borck (University of Potsdam), Martin Jegard (INRAE), Efthymia Kyriakopoulou (Athens University of Economics and Business), Pierre Picard (University of Luxembourg)	Urban mass transit
The Heterogeneity of Perceived Public Transport Reliability	Dennis Gaus (TU Dresden), Heike Link (DIW)	Urban mass transit
Transit-Oriented Development: Does It Increase Density, Transit Use, and Reduce Congestion? Evidence from São Paulo	Tainá Pacheco (UAB - Universitat Autònoma de Barcelona)	Urban mass transit
